

Welcome and thank you for visiting the Student Delegation page. My name is Stephanie Toubman, and I am extremely honored to have been elected as the President of the EATA Student Delegation for the 2021-2022 academic year, and truly appreciate the support of both the EATA and my fellow Student Delegates.

Every two years, one or two students from each state in Districts 1 and 2 are appointed by their state association president to serve as their state representative to the Student Delegation. Through this experience, we are afforded the opportunity to represent the students of our state, meet other future leaders of the athletic training profession, and learn from many well-accomplished health care professionals and leaders within the profession.

Our goals are to increase our collaboration with other student leaders at the state, district, and national levels, and find ways to enhance communication both within our delegation, and with the other AT committees and organizations. As our committee continues to evolve, our delegates have even more leadership opportunities, allowing more opportunities for direct involvement with EATA committees and other student groups.

This year's student program at the EATA Convention has been created by the students, for the students. Each member of our student delegation has dedicated a substantial amount of hard work, passion, and creativity into making this student program the best that it can be.

Thank you again for your continued support and I look forward to seeing you in person at the EATA Annual Convention in January.

Warmest Regards, Stephanie Toubman
