

Student Delegation Supporters,

Thank you for visiting our delegation page and I appreciate your support of both the EATA and the EATA Student Delegation. I am Morgan Adams and am honored to have been elected President of the EATA Student Delegation for this academic year. With one or two representatives from each state in the EATA, we are given the unique opportunity to not only represent the needs of students in our state, but also meet other future leaders of the profession. As the field of athletic training continues to grow, our delegation must follow. This year is full of change, perhaps the most our delegation has seen since it's inception. We are working to be almost entirely student run, with an end goal of a cohesive annual conference that works hand-in-hand with the certified program. Our focus on student progress and presentations that will help lead students to lifelong career success drives our programing. I am honored to be a member of the delegation for my second, and final, year and am incredibly excited to share a program created by the students, for the students. Seeing the hard work of each delegate is incredibly rewarding, and your support helps drive our delegation to improve. Thank you again for your support and I look forward to seeing you at the EATA Annual Convention in January.

All the Best,
Morgan Adams
