

Thank you for visiting the delegation page. I truly appreciate your support for both the EATA and the EATA Student Delegation. My name is Meaghan Kelley, and I am very honored to have been elected as the President of the EATA Student Delegation for the 2020-2021 academic year.

Every two years, one or two students from each state in Districts 1 and 2 are appointed by their state association President to serve as their state representative to the Student Delegation. Through this experience, we are all provided with the opportunity to represent the students of our state, meet other future leaders of the athletic training profession, and learn from many well-accomplished health care professionals and leaders within the profession.

Our goals for this year are to increase our collaboration with other student leaders at the state, district, and national levels, and find ways to enhance communication both within our delegation, and with the other organizations. As our committee has continued to evolve, our delegates now have even more leadership opportunities, so that they are more involved directly with EATA Committees and other student groups.

This year's student program at the EATA Convention has been created by the students, for the students. Each of the individuals on our delegation have dedicated a substantial amount of hard work, passion and creativity into making this student program the best that it can be.

Thank you again for your continued support and I look forward to seeing you virtually at the EATA Annual Convention in January.

All the Best,  
Meaghan Kelley
